

HOME INSPECTIONS

Under the home inspection program, the Fire Dept. would come to your house and with you look for hazards and ways for you to correct those hazards. This program is available to any GTB Family no matter where you live in our service area. If you live in NON-Government housing, we can assist you with fire detectors and fire extinguishers. Please call 231-534-7666 to set up your appointment for inspection.
