## **ANNOUNCING SIX (6) NEW COVID-19 CASES, LATEST ON BOOSTER SHOTS, 15 BREAKTHROUGH CASES**

September 23, 2021

- The GTB Health Department is reporting six (6) new positive COVID-19 cases from September 20<sup>th</sup> through September 21<sup>st</sup>. The local health department for Leelanau County was notified as the county of residence and is in the process of completing a case investigation. If you've been identified as a close contact (**someone who has been within 6 feet of an infected person (laboratory confirmed or a clinically compatible illness) for a cumulative of 15 minutes or more over a 24-hour period. An infected person can spread the virus that causes COVID-19 starting from 2 days before they have any symptoms or, for asymptomatic patients, 2 days before the positive specimen collection date**) during the course of the case investigation, please expect to receive a call or text from the local health department or the Michigan Department of Health and Human Services. **It is critically important you respond to the call or text in order to protect the community from further spread.**
- On September 22, 2021, The FDA amended the emergency use authorization (EUA) for the Pfizer-BioNTech COVID-19 Vaccine to allow for use of a single booster dose, to be administered at least six months after completion of the primary series in:
  - individuals 65 and older;
  - individuals 18 through 64 years of age at high risk of severe COVID-19; and
  - individuals 18 through 64 years of age whose frequent institutional or occupational exposure to SARS-CoV-2 puts them at higher risk of serious complications of COVID-19 including severe COVID-19.

**This authorization only applies to the Pfizer-BioNTech COVID-19 Vaccine.** The CDC's Advisory Committee on Immunization Practices (ACIP) is meeting September 22-23<sup>rd</sup> to deliberate and consider booster shot recommendations. The GTB Health Department is monitoring these developments closely. The GTB Health Department will contact individuals to schedule their booster shots, following approval and clinical recommendations for use. Please note, booster shots cannot be administered until FDA, ACIP, and CDC all provide approval. Please note, Moderna submitted their booster data to the FDA but a date for formal review has not been set. Booster dose data has not been submitted by Johnson and Johnson for FDA review. Please do not hesitate to contact the GTB COVID-19 Vaccination Line (231-534-7475) with questions.

The GTB Health Department has administered 3,932 doses, including 2,079 first doses, 1,853 second doses, 2,236 Moderna doses, 1,668 Pfizer doses, and 28 Johnson & Johnson doses.

## By County

- Leelanau – 89
- Benzie – 5
- Grand Traverse – 95
- Kalkaska – 4
- Manistee – 2
- Charlevoix – 8
- Antrim -17
- Ingham – 1

\*\*\*There are more active cases in the community that were tested at other facilities that are not included in this tally.

- **COVID-19 vaccines for moderately to severely immunocompromised people.** Currently, CDC is recommending that moderately to severely immunocompromised people receive an additional dose. This includes people who have:
  - Been receiving active cancer treatment for tumors or cancers of the blood
  - Received an organ transplant and are taking medicine to suppress the immune system
  - Received a stem cell transplant with the last 2 years or are taking medicine to suppress the immune system
  - Moderate or severe primary immunodeficiency (such as DiGeorge syndrome, Wiskott-Aldrich syndrome)
  - Advanced or untreated HIV infection
  - Active treatment with high-dose corticosteroids or other drugs that may suppress your immune response.

Please contact the GTB Health Department to schedule your additional dose (231-534-7475). Also, please talk with your GTB medical provider (231-534-7200) or your health provider about getting an additional dose for your particular medical condition.
