Re: Notice of Workplace Exposure to a positive COVID-19 case

We have been notified by the Grand Traverse Health Department that a customer visiting the Turtle Creek Casino & Hotel on August 22nd between 11:00pm and 2:00am and August 23rd between 9:00pm and Midnight has tested positive for COVID-19. According to the Centers for Disease Control and Prevention (CDC), the virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet for 15 or more minutes) through respiratory droplets produced when an infected person coughs or sneezes.

We feel that exposure to our employees and other guests is minimal because of our mask requirement, constant cleaning, and maximized ventilation systems.

The Grand Traverse Resort and Casinos is taking measures to ensure the safety of our employees during this coronavirus outbreak, including disinfecting exposed areas and working with the local health department.

For more information on COVID-19, including symptoms and treatment, visit the CDC website at www.cdc.gov.
